How to add exception for applications in

AVG AntiVirus

Step 1

Double-click the AVG icon in the taskbar's notification area to open user interface.

Step 2

Click "Computer UPDATING" option to continue.

Step 3

Click the "Manage exceptions" button.

Step 4

Select "Exceptions" from the list of options in the left column. Choose "Add Exception" from the options in the right column.

AVG AntiVirus FREE	Advanced Settings		
Appearance Sounds Temporarily Disable AVG Protection	Exceptions • Object	Туре	Used by Component
 Computer Protection AntiVirus Anti-Rootkit Cache Server 			
 Email Protection Web Browsing Protection Identity Protection Scans 			
 Schedules Update Exceptions Virus Vault 			
AVG Self Protection Privacy Preferences Ignore Error Status Advisor - Known Networks	<	III	

In the drop-down menu please select the exception type.

Step 5

Select the folder or file and click "OK" to add it to the Exceptions list.

Step 6

Click "Apply" to apply the new settings. Click "OK" to close the AVG Advanced Settings window.
